

## Boxplot Story (start with a green thing)

1. Open UK Car Consumption and Emissions. tde
2. Uncheck Aggregate Measures under the Analysis tab and Rename the Current Sheet to Co2 Emissions Boxplot.
3. Click on Co2 Under Measures and then click on the boxplot icon on "Show Me" i.e., the right icon on row 7.
4. Drag Fuel Type onto Columns.
5. Drag Manufacturer onto the Color Shelf.
6. Drag Manufacturer onto the Filters Shelf and from this Pill's menu, select Show Quick Filter.
7. Drag Engine onto Detail
9. Drag Manufacturer onto Pages
10. Filtered out the top 20 luxury cars
12. Click through the luxury car brands on Pages
